

HI THERE!

I'm Mandy Mills –

Working as an independent contractor from concept design through construction documenttion, I was lead design architect on the first ground-up housing project in Reno, Nevada's "Neon Line District." The project is now under construction. 3D images produced with my direction by another independent contractor.

LET'S TALK!

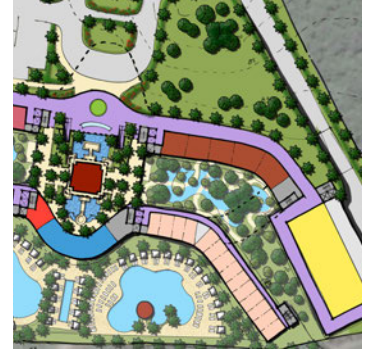

HI THERE!

I'm Mandy Mills –

I am versed in a variety of software, graphic techniques and project types.

I am a team player, but work well solo, too. Samples below are from my position as a Project Planner with Steelman Partners, LLP where I primarily focused on masterplanning, large scale concept and schematic design working closely with architects, 3D artists, branding departments and the CEO.
